How to Use This Guide

Built to be printed and pinned, or kept open on a second screen.

Every essential Excel keyboard shortcut for Windows and macOS, grouped into 16 categories so you can find what you need in seconds.

Use it three ways:

- Print and pin it next to your monitor
- Open on a second screen while you work
- Search the PDF for the action you want

What's Next?

You now have every essential Excel shortcut at your fingertips. The fastest way to lock them in is to use them.

Pick three shortcuts you do NOT use today. Use those three this week, every chance you get. By next Friday they will be muscle memory. Then pick three more.

1

Print page 3 to 8

Pin them next to your screen for one-glance reference.

2

Pick three shortcuts to learn this week

Use them every chance you get until they are automatic.
